

# JUSTWARDROBEDOORS

## IKEA ASSEMBLY DETAILS for doors and components when using the IKEA carcass

The door sizes are designed to suit IKEA carcass 2360mm high or 2010mm, which are 500mm or 1000mm wide.

HINGE HOLES ARE DRILLED TO MATCH THE IKEA POSITIONS.

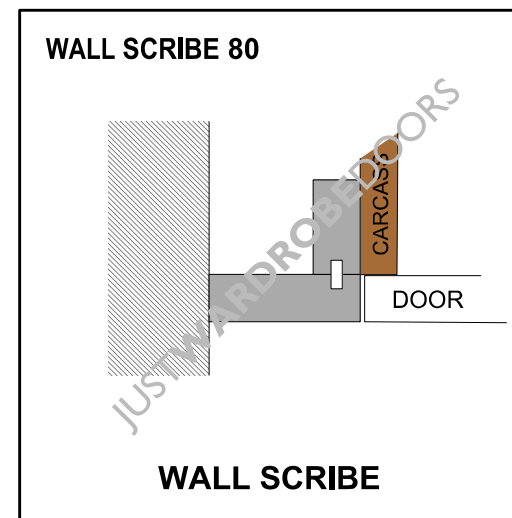

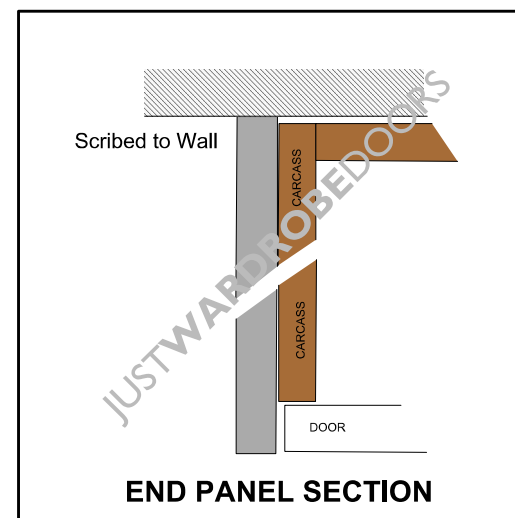

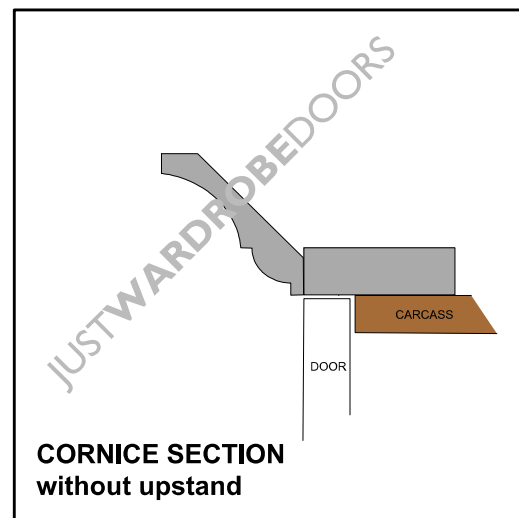

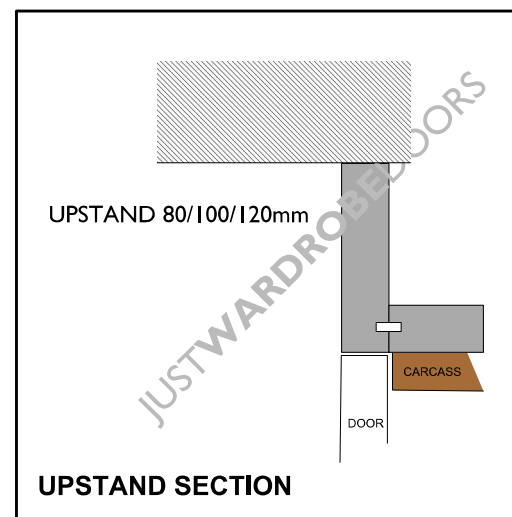

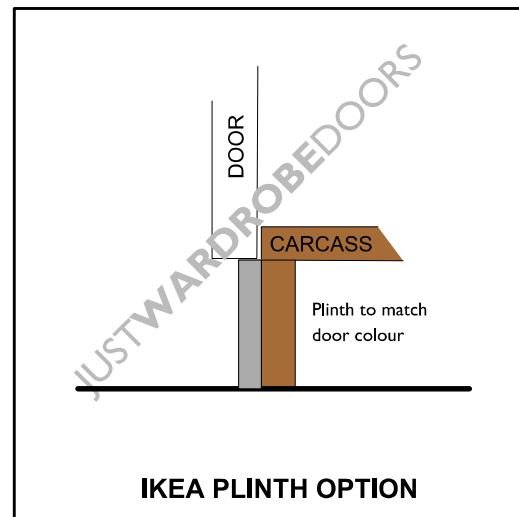

Each installation is unique and therefore consider the sections below in your selection of components which will suit your installation, these sections are supplied as GUIDANCE ONLY and each installation will vary and therefore some flexibility needs to be considered.

The components are supplied in lengths and undrilled and you will require a SKILLED craftsman to scribe and fit. (all sizes are shown on our website)

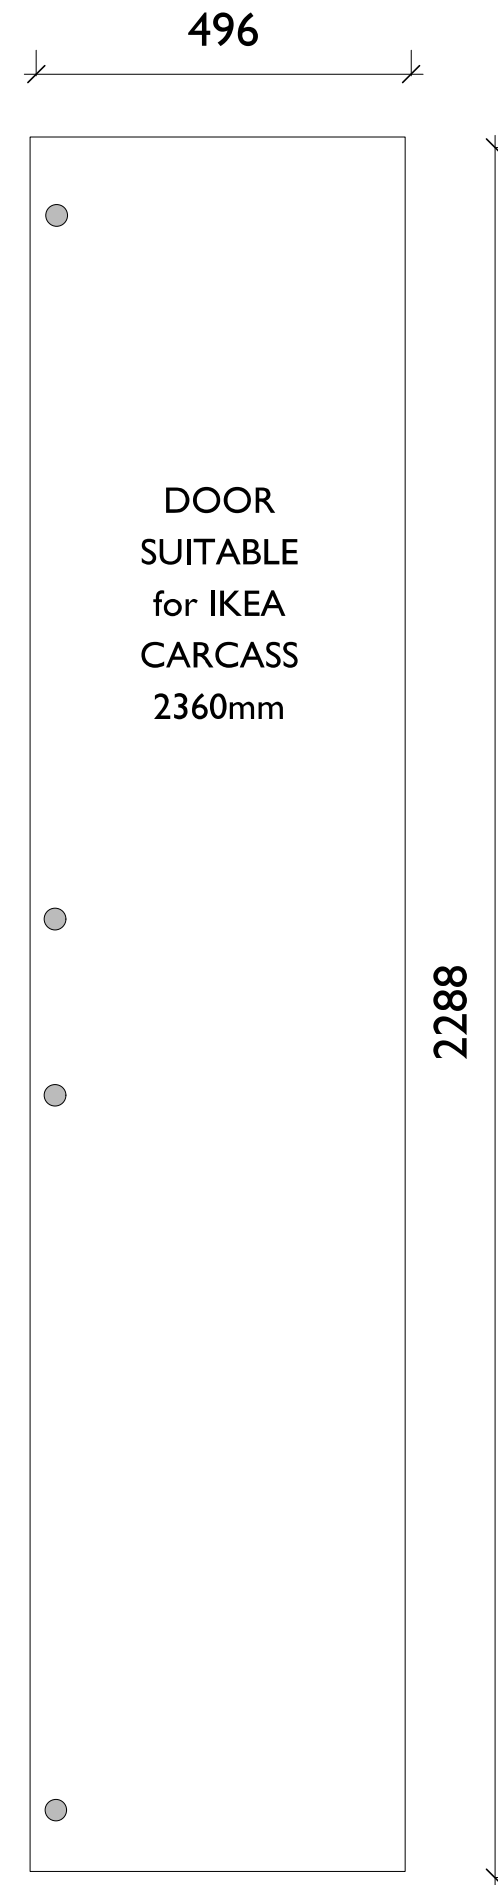

If you would like us to design the wardrobe for your fitter please ask. WE ARE HERE TO HELP

WE MAKE OUR IKEA DOORS smaller than IKEA sizes to allow for skirting and cornices to be fitted.

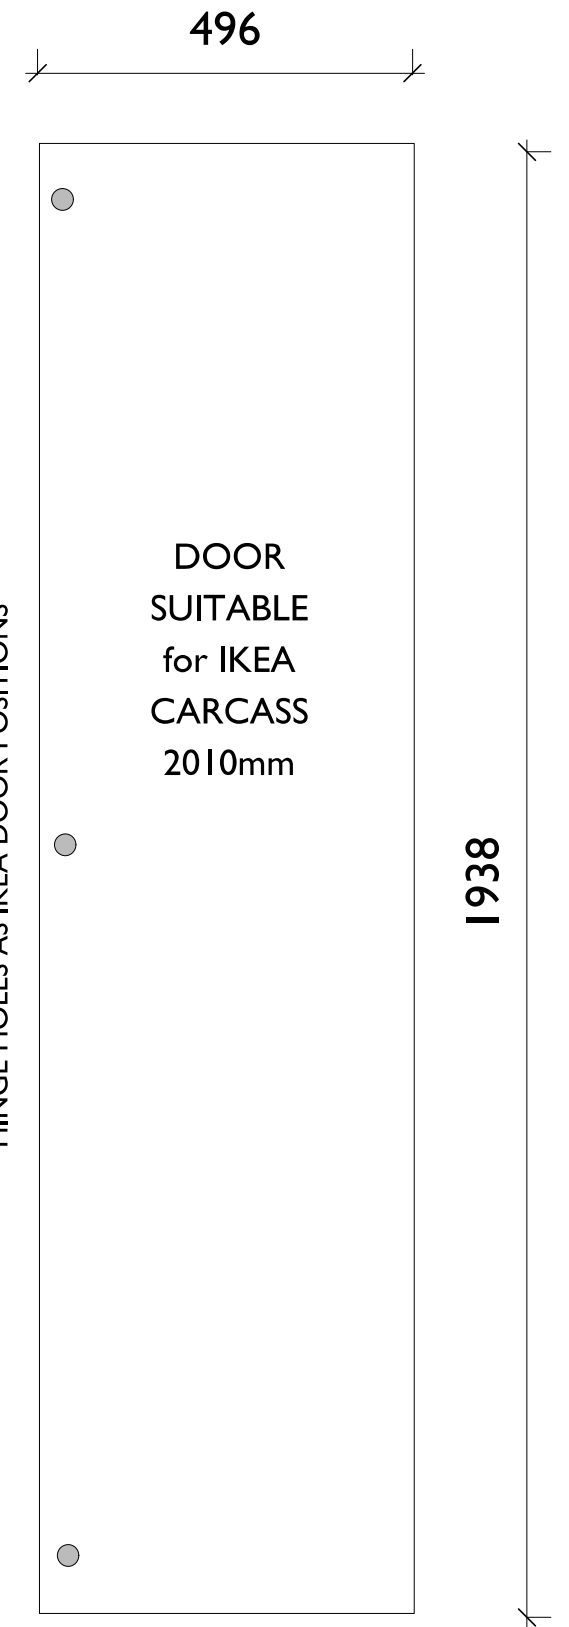

WE CHECK ALL ONLINE ORDERS TO MAKE SURE IT ALL MAKES SENSE
